Gallery walk — Unit 2 claim posters

Name _____ Period B Fri 11/13 My poster: #____

Visit every poster except your own. At each one, write the claim in five words, circle the verdict, work out the ONE number that decides it yourself (a fraction and percent, or dollars) and check it against the poster, and name the word from the language objective the poster needed.

Poster	The claim in five words	Verdict	The one number that decides it (your own work)	The word it needed
#1 Who wants to be rich?		supported · not · partly		given · joint · union · mutually exclusive · independent · expected value
#2 The flipped headline		supported · not · partly		given · joint · union · mutually exclusive · independent · expected value
#3 Can't happen together, so unrelated?		supported · not · partly		given · joint · union · mutually exclusive · independent · expected value
#4 Double counted		supported · not · partly		given · joint · union · mutually exclusive · independent · expected value
#5 Is the game fair?		supported · not · partly		given · joint · union · mutually exclusive · independent · expected value
#6 Rigged coin? (if posted)		supported · not · partly		given · joint · union · mutually exclusive · independent · expected value

Which claim would have fooled you on Monday? Why?

One thing I would add to poster #___:

Finish the sentence: A probability claim is trustworthy when …
