Gallery walk — Unit 2 claim posters

Name _____ Period B Fri 11/13 My poster: #___

Visit each poster except your own. At each one:

1. Write the claim in five words.
2. Circle the verdict.
3. Work out the one number that decides it yourself (a fraction and percent, or dollars). Then check it against the poster.
4. Write the key word the poster used: given · union · independent · mutually exclusive · expected value.

Poster	The claim in five words	Verdict	The one number that decides it (your own work)	Key word
#1 Who wants to be rich?		supported · not · partly		
#2 The flipped headline		supported · not · partly		
#3 Can't happen together, so unrelated?		supported · not · partly		
#4 Double counted		supported · not · partly		
#5 Is the game fair?		supported · not · partly		
#6 Rigged coin? (if posted)		supported · not · partly		

Which claim would have fooled you before this week? Why?

One thing I would add to poster #___:

What makes a claim about chance worth believing? Use one poster as your example.
